Dear Doug

Pay and Employment Equity Review

Thank you for providing me with the completed Report and Response Plan for Gisborne District Council's pay and employment equity review. Congratulations to you and to the project team for the professional and timely work.

I also appreciate the funding and policy leadership of the Department of Labour, without which the project would not have occurred.

I have reviewed the report and Action Plan. You have my commitment – supported by the Corporate Management Team – to implement the Plan.

Jon Davies, his team and I will need to work together to achieve the milestones.

When the project was first mooted I was asked to say what I thought about it. My expectations that the project would give us a clear steer about the approach we needed to take to personnel management in the widest sense have been met.

Thank you everyone.

Yours sincerely
