

At the  of the hospital

DHB admin workers  
are worth 100%

We are PSA members at \_\_\_\_\_

Our work is essential to the smooth operation of the health system. Without it, patient care would suffer.

But because it's often thought of as "women's work", it's been undervalued.

We want to be paid what we're worth, and we will act to achieve equal pay.

**We pledge to:**

- Form an equal pay advocates team for our workplace
- Ask workers to join the PSA and get involved in our campaign
- Talk about our equal pay claim in our workplaces, homes, and in the community

**It's time to value our work.**

**Equal pay NOW!**

**SIGNED:**
