

# Equal pay advocates

## Sign-up sheet

Women have similar qualifications to men, but often their work isn't valued the same and their career progression is slower. It's why women's average earnings are 14% less than men's in the public sector. **It's time to close the gender pay gap.**

Sign up to become an equal pay advocate and help make a difference in the lives of working women.

| Name | Employer | Email address |
|------|----------|---------------|
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
|      |          |               |
