

DHB Admin staff
 At the  of the
 hospital

**Administration workers keep our health system
 running.**

They are the heart of the hospital, and without them, everything grinds to a halt – but their work is undervalued and overlooked. We want to close the current pay gap of 15 – 45% and achieve a pay increase that recognises their skill and expertise

Sign here and show you support equal pay for DHB administration workers because they are Worth 100%.
